

# AQUARIUS™

WATER PURIFICATION SYSTEM  
PATENT PENDING

*Introducing a new cost-effective source for ultra-pure sterile water:*

## **AQUARIUS® WATER PURIFICATION SYSTEM**

PATENT PENDING

The Aquarius Water System converts ordinary tap water to ULTRA-PURE, STERILE WATER meeting USP standards for Inhalation Therapy. Six separate purification treatments are incorporated into one convenient system to ensure a safe, effective source of sterile water in your hospital or laboratory:

- ***Magnetic Calcium Precipitation***
- ***Fine filtration***
- ***Reverse Osmosis***
- ***De-ionization***
- ***Ultra-Violet Radiation***
- ***Ultra-fine, .2 micron filtration***

Aquarius will provide up to 150 liters per day of sterile water, at a cost as low as .29 per liter. This system is recommended for all of your inhalation therapy needs. Contact our customer service representatives at:
